GENERAL STATEMENT OF HEALTH & SAFETY POLICY

It is the policy of Safer Edge to establish, provide and maintain working and training conditions that are safe, healthy and conform to appropriate safe systems of work in all locations in which we operate.

Safer Edge will provide all necessary information, instruction, training and supervision for all employees and contractors so that their work does not put themselves, their colleagues, clients, contractors, visitors or members of the public at risk.

Safer Edge will take all reasonable and practicable steps to ensure the safe selection, use, maintenance, repair or replacement of vehicles and equipment.

All employees, contractors and clients must take reasonable care of themselves and any other people who may be affected by their actions and comply with safety rules and practice at work. They must also carry out any necessary duty that the law requires and cooperate with Safer Edge to allow legal obligations to be met. Anything provided for health and safety purposes must be used properly and not misused.

Safer Edge will consult with our employees and contractors when reviewing health and safety policy and procedures. Our employees’ contribution is essential in achieving a safe and healthy work environment.
